

Experience The Chinese Equipment on INTERMAT

Booth No. **4E083**

Over the past decade, Chinese infrastructure construction including transportation, energy and municipal facilities has ranked highly for quality and efficiency in many projects built around the world.

Many of the builders of these projects have utilized Chinese-made construction machinery, which offers not only competitive price but also great performance.

There are more than 20 leading manufacturers in China, including XCMG, Zoomlion, Sany, LiuGong, Shantui, SinoMach, Sunward, NFLG, Yongmao, CRCHI, CREEG, who produce a wide range of lifting machinery, earth-moving machinery, concrete machinery, road building machinery and tunnel machinery, which has played a significant role in infrastructure construction in China as well as Asia, Africa, Latin America and Middle East.

**Welcome to attend the press conference on the Globalizing Chinese Construction Equipment Industry .
You will have opportunity to interact with CEO & VIP of leading Chinese manufacturers face to face.**

**Supporter: Ministry of Commerce of the People's Republic of China
Organizer: China Chamber of Commerce for Import and Export of Machinery and Electronic Products (CCME)
China Construction Machinery Association (CCMA)**
